

REMARKS

As in the Amendment filed September 15, 2003 ("the previous paper"), the instant paper deletes the hand-written interlineations/markings on specification pages 23, 24, 33, 45, 47, and 61 and inserts the sequence identifier (SEQ ID NO:) for each of the sequences found at page 58.

The instant paper is submitted to correct inadvertent errors of a clerical nature and format amended paragraphs, with respect to the specification amendments contained in the previous paper. For the sake of completeness on the record, the entire section "Amendments to the specification" from the previous paper is repeated, hereby, with changes incorporated, such that the pages of amendments to the specification, *infra*, effectively replace the corresponding pages of the previous paper.

The errors made in the previous paper, though inadvertent, are nonetheless regretted, with apologies to the Examiner and the PTO for any resulting inconvenience.

As the previous paper is considered to constitute a complete response to the Office Action mailed April 15, 2003, no extension fees are considered necessary in connection with submitting the instant paper. Please charge any necessary fees to deposit account No. 06-1358.
